Profile

I am an aspiring Backend Developer with expertise in the MERN stack (MongoDB, Express.js, Node.js). Having recently completed my training at Luminar Technolab, I am eager to build scalable and efficient server-side applications. I am passionate about learning new technologies, solving problems, and contributing to innovative projects in the tech industry.

Education

BSc Computer Science, Kannur University *2021–2024*

CGPA: 8.9

Higher Secondary Education *2019–2021*

Technical Skills

- Node.js, Express.js
- MongoDB
- JavaScript

Professional Experience

MERN Stack Trainee, Luminar Technolab *October 2024 – 2025*

Gained hands-on experience in backend development using Node.js, Express, and MongoDB, focusing on building robust APIs and managing databases.

Projects

- **SkillHub Learning Platform (React & Express)**
Developed the backend using Express.js and MongoDB to manage course data, user authentication, and secure payment integration, ensuring efficient data handling and API performance.
- **ProjectFair (Express)**
Built the backend for a student project management platform using Express.js, focusing on secure data storage and retrieval with MongoDB.
