Profile

I am an aspiring Frontend Developer with expertise in building dynamic, user-friendly web applications using React, JavaScript, HTML, CSS, and Angular. Having recently completed my training at Luminar Technolab, I am eager to apply my skills in creating responsive and interactive user interfaces. I am passionate about learning new technologies, solving problems, and contributing to innovative projects in the tech industry.

Education

BSc Computer Science, Kannur University *2021–2024*
CGPA: 8.9

Higher Secondary Education *2019–2021*

Technical Skills

- HTML, CSS, JavaScript
- React, Angular
- Node.js (Frontend Integration)

Professional Experience

MERN Stack Trainee, Luminar Technolab *October 2024 – 2025*
Developed and honed skills in frontend development using React and Angular, contributing to user-centric web applications.

Projects

- **SkillHub Learning Platform (React & Express)**
Built a platform for purchasing courses tied to offline institutes, featuring a user-friendly cart and secure payment system. Developed the frontend using React to ensure a seamless user experience.
- **ProjectFair (React)**
Created a web platform for students to manage and showcase projects, with a responsive frontend built using React for an intuitive user interface.
- **Redux Cart System (React & Redux)**
Developed an eCommerce cart system with features like add/remove products, wishlist, and order handling, leveraging React and Redux for state management.
